

Joinery with "Hundegger K3"

1. Projects in Dietrich's (or similar programs)

For projects designed by using Dietrich's (or similar programmes) compatible with our Hundegger K3 trimming line, simply send the trimming file to receive our offer (.bvn format)
No design or conversion fees will be charged for such projects.
Customer has to be responsible for statics and dimensioning supervision.

2. Projects in AutoCad (or similar programs)

For projects designed in Autocad or other design programmes without trimming modules, send us your finished **implementation plan** (including dimensioning) (.dwg or .dxf format) by e-mail. We will send you an offer for the conversion of the project into Dietrich's and the execution of the project. Conversion fees will be charged for such projects. Customers will be provided with plans for checking and assembly. The conversion costs are included in the offer. Customer has to be responsible for statics and dimensioning supervision.

Precalculation trimming centre "Hundegger K3"

Sample:

plant view: 12.0 x 9.0 m
roof pitch: ~ 36.0 %, porch: 0.80 m

34 pcs. rafter Dim. 12 x 20 cm
1 ridge beam Dim. 16 x 28 cm

1	2	3
approx. € 80,00 / m ³	approx. € 110,00 / m ³	approx. € 160,00 / m ³
rafter: Profil 7; Profil 8 ridge beam: Profil 7; Profil 9	rafter: Profil 7; Profil 1 ridge beam: Profil 7; Profil 9	rafter: Profil 1; Profil 12 ridge beam: Profil 7; Profil 9; Profil 12

hours / m ³	1	1,5	2	2,5	3	3,5	4
€ / m ³	€ 200,00	€ 135,00	€ 105,00	€ 85,00	€ 70,00	€ 60,00	€ 55,00

Additional costs for trimming depends on complexity and dimensions of the construction.
